DETAILED ACTION

1. This office action is in response to application 10/603,734 filed on 06/24/2003. Claims 1-31 remain pending in the application.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-17, 22-31 (Group 1), drawn to a method/program/system of implementing a design in a programmable logic device (PLD) to reduce susceptibility to single-event upsets (SEUs) by providing duplicate paths during the routing phase of the place-and-route implementation of the PLD design, classified in class 716, subclass 2.
 - II. Claims 18-21 (Group 2), drawn to a method/program/system of implementing a design in a programmable logic device (PLD) to reduce susceptibility to single-event upsets (SEUs) using a post-processing step performed on a previously placed and routed PLD design, classified in class 716, subclass 5.

Inventions 1-17, 22-31 (Group 1), and 18-21 (Group 2) are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed, because Group 2 includes additional step of post-processing that is performed on the previously placed and routed PLD design. The subcombination has separate utility such as **“performing post-processing of the routed design”**.

3. Because these inventions are distinct for the reasons given above, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
